Experience

Sales Advisor | SportChek

Sept 2024 - Present

- Delivered personalized customer service by understanding customer needs, recommending products, and communicating product features and promotions.
- Maintain strong product knowledge and contribute to an organized, visually appealing retail environment.
- Support store standards by maintaining product presentation, organization, cleanliness, and customer-ready sales areas.
- Develop an understanding of how product presentation and in-store experiences influence customer engagement and purchasing decisions.

Web Design Specialist | First Filter & Battery

May 2026 – Jun 2026

- Improved website usability and visual consistency through responsive design and structured visual layouts.
- Enhanced UI components using React and CSS while balancing visual design with functional requirements.
- Collaborated with developers through Git and GitHub workflows to implement design and technical changes.
- Supported development of an internal POS management system, gaining exposure to retail-oriented technology and workflows.

Library Assistant | School Library, RMSC

Jul 2022 – Mar 2023

- Created simple promotional displays and visual materials to encourage student engagement with library programs and resources.
- Organized and maintained physical resources to ensure an accessible, structured, and visually organized environment.
- Assisted with inventory management and daily operations while maintaining an inviting environment for students and staff.

Education

Interactive Design and Technology Diploma

Aug 2024 - Jun 2026

Saskatchewan Polytechnic – Saskatoon, SK

Program combining art, design, technology, digital media, and interactive development, with hands-on experience in visual communication, digital design, 3D modelling, and creative technology.

Projects

3D Room Design

- Designed and modelled a complete 3D interior environment using Blender.
- Applied lighting, materials, textures, scale, and composition to create a realistic spatial environment.
- Developed the project with attention to visual balance, atmosphere, object placement, and presentation.
- Demonstrated the ability to translate a design concept into a three-dimensional environment.

Comic Book Poster Design

- Created a custom illustrated poster focused on dynamic composition and visual storytelling.
- Applied colour theory, typography, hierarchy, and image composition to create an engaging visual experience.
- Developed design concepts with attention to audience, theme, and overall visual impact.

Movie / Song Poster Design

- Developed concept-based promotional designs using Adobe Photoshop and Illustrator.
- Applied branding principles, typography, layout, and visual hierarchy to communicate themes effectively.
- Produced multiple visual concepts while maintaining consistency between imagery and messaging.
